

# Clinical Investigator Essentials

## Principal & Sub-Investigators

Advantage Clinical's Clinical Investigator Essentials online course delivers high level training and on-boarding for new principal and sub-investigators.

In addition to the Investigator Responsibilities as required by Good Clinical Practice, this course provides students with the technical, regulatory and operations skills to effectively oversee and manage clinical research activities under their purview.

Targeted to investigators, this course provides the essentials of:

Clinical Research Administration	Human Subjects Protection
Investigator Responsibilities and Oversight	Clinical Research Conduct

Included in this course is:

1. Introduction to Clinical Research
2. Clinical Investigator Responsibilities
3. Good Clinical Practice
4. Informed Consent
5. Clinical Trial Protocols
6. Study Start up, Initiation, Conduct and Closure
7. Investigator Site File & Essential Documents
8. Data Management, Source Documentation & Case Report Forms
9. Adverse Events, Safety Monitoring and Reporting
10. Study Monitoring
